BUSINESS PROPOSAL

Sweet Spot Custom Cakes

AI-Powered Bakery Management System

PREPARED FOR	DATE	VALID THROUGH	PREPARED BY
Sweet Spot Custom Cakes	May 2026	June 15, 2026	Jay Alexander

⚠ The Challenge

Running a custom cake bakery means juggling orders, tracking inventory, managing staff, and answering the same customer questions — all while actually baking. Most bakeries are still using notebooks, spreadsheets, or generic tools not built for them. Every hour spent on admin is an hour not spent on your craft.

The Solution

A custom-built, AI-powered bakery management platform designed specifically for Sweet Spot Custom Cakes — already built, already live, and ready for your team today. One platform handles everything: orders, inventory, staff, and a 24/7 AI assistant for your customers.

What's Included

Cakely — AI Bakery Assistant

Your 24/7 AI assistant trained on your menu, pricing, and offerings. Answers customer questions instantly — flavors, sizing, custom requests — day or night. Never puts a customer on hold.

Order Management

Create, track, and manage all custom orders in one place. Full status tracking from pending to picked up. Customer info stored and searchable. Never lose an order detail again.

Inventory Tracking

Track ingredients and supplies in real time. Low stock alerts so you never run short mid-week. Reduce waste and plan better with full visibility into what you have.

Staff Portal

PIN-based staff login — no passwords to forget. Each team member has their own secure access. See activity logs and keep everyone on the same page.

Pickup Scheduling

Today's pickups at a glance. Upcoming order calendar. No more sticky notes, missed pickups, or surprise same-day orders. Everything organized, always visible.

Business Intelligence

Order history and revenue trends. Busiest days and most popular items. Real data to help you plan staffing, inventory, and promotions smarter.

Investment

TOTAL PROJECT FEE

$3,000

Custom build + full setup

MONTHLY SERVICE

$200/mo

Hosting + support + AI costs

WHAT $200/MO COVERS

- ✓ Cloud hosting (always on)

How We Compare

FEATURE	SPREADSHEETS	GENERIC POS	SWEET SPOT PLATFORM
Built for bakeries	✗	Partial	✓
AI customer assistant (24/7)	✗	✗	✓
Custom to your menu & brand	✗	✗	✓

FEATURE	SPREADSHEETS	GENERIC POS	SWEET SPOT PLATFORM
Order + inventory + staff	Manual	✓	✓
Local, dedicated support	✗	✗	✓
Monthly cost	$0 (but costs you time)	$100–300/mo	**$200/mo**

Why Alexander AI

Built For You

Not generic software adapted to fit. Built specifically for a custom cake bakery like yours.

Already Live

You can demo it today. This isn't a promise — it's a finished product ready to go.

AI-Powered

Cakely gives you a 24/7 customer service team member at a fraction of the cost.

Local Support

You're working with a real person who built the system and can fix anything fast.

Grows With You

As Sweet Spot grows, we add features. Your platform evolves with your business.

Secure & Reliable

Cloud-hosted with backups. Your data is safe and your app is always available.

Next Steps

1. **Review Proposal** — Share with your team
2. **Live Demo** — We walk through it together
3. **Sign & Start** — Customize to your brand
4. **Go Live** — Typically within 1 week
